

## Gravie 2024 Formulary Drug Lists

Enclosed in this packet are the following documents providing detailed information about the Gravie formulary, drug coverage, networks and more.

- 2) Gravie Basic Formulary Document
    - A comprehensive formulary covering most drugs on the market. The attached is an abridged list. If your drug is not on the list, contact Gravie Care to verify drug coverage and to help you and your provider identify covered alternatives.
    - Some categories of drugs are excluded from coverage, but may appear on this document, as this is a standard list provided by CVS for all CVS clients. Categories excluded from coverage at Gravie include anti-obesity and autoimmune agents - physician administered. Autoimmune agents administered by a physician are covered under the medical benefit. Reach out to Gravie Care if you have specific questions.
  
  - 16) Gravie Preventative Drug List
    - A list of all no-cost Preventative drugs to help you manage some of the most common chronic diseases.
  
  - 19) Gravie Specialty Drug List
    - A list of the Tier 4 Specialty drugs, which are filled at CVS Caremark Specialty Pharmacy.
  
  - 20) National network
    - List of nationwide participating pharmacies
  
  - 22) Gravie Utilization Management List
    - This is a list of the most common Tier 1 (Generic) Tier 2 (Preferred Brand) or Tier 3 drugs (Non-Preferred Brands) drugs covered by Gravie.
  
  - 24) Mail Order
    - Mail Order is managed by CVS Mail. Click the link listed for more information.
  
  - 25) Managing Diabetes
    - Information on how to order a glucose meter, covered by your plan at no cost
- 

Questions? Gravie members have access to **Gravie Care**, a team of advisors available to help members evaluate plan options, verify network coverage, locate providers, decipher EOBs and bills, and so much more.

Gravie health plan members are just a phone call or secure message away from someone who's on their side, willing to go the extra mile to help them make the most of their health plan year round.

# Performance Drug List - Basic Control for Clients with Advanced Control Specialty Formulary®

The **CVS Caremark® Performance Drug List - Basic Control for Clients with Advanced Control Specialty Formulary®** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

## PLAN MEMBER

Your benefit plan provides you with prescription drug coverage that is administered by CVS Caremark. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list the next time you or a covered family member sees a doctor.

### Please note:

- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document.
- Your prescription benefit plan design may alter coverage of certain products or vary copay<sup>1</sup> amounts based on the condition being treated.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- For specific information regarding your prescription benefit coverage and copay, please sign in or register on [Caremark.com](https://www.caremark.com) and click Plan Summary on the Plan & Benefits menu.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

## HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

### Please note:

- Generics should be considered the first line of prescribing.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document.
- The member's prescription benefit plan may have a different copay for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay information for a specific medicine.

You may be responsible for the full cost of certain non-formulary products that are removed from coverage. Please check with your plan sponsor for more information.

**FOR YOUR INFORMATION: Generics should be considered the first line of prescribing.** This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay information for a specific medicine.

An exception process may exist for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

§ Generics are available in this class and should be considered the first line of prescribing.

† The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

<sup>1</sup> Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

<sup>2</sup> An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

<sup>3</sup> BD ULTRAFINE syringes and needles are the only preferred options.

<sup>4</sup> ACCU-CHEK or ONETOUCH brand test strips are the only preferred options.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

| All Drugs              | On a quarterly basis, new and existing products - including limited source generics, products with significant cost inflation, and specialty and non-specialty products - may be re-evaluated to determine appropriate formulary placement. These evaluations will assess whether clinically appropriate and cost-effective options remain available on the formulary and may result in additional products not covered without a medical exception, addition or deletion of a product. |

The listed formulary options are subject to change.

There may be additional drugs subject to prior authorization or other plan design restrictions. Please consult your plan for further information.

CVS Specialty®

# Medication and support just for you

We're a specialty pharmacy that provides personalized care to help make living with your condition a little easier.

## What is a specialty pharmacy?

It's a pharmacy that provides specialized medications. This may include medications that help manage complex conditions (such as rheumatoid arthritis, multiple sclerosis and cancer) or those requiring injections or infusions.

## A team of pharmacists and nurses specially trained in your condition

You can send a secure message to your CVS Specialty CareTeam any time you have a question about your health or medication. You can also get tips on how to take your medication correctly, help you manage side effects and stay on track.

## A choice of pick up or delivery

Get the medication you need, when and where you need it. Have it delivered to any place nationwide or pick it up at any CVS Pharmacy® location.\*

Learn more at [Caremark.com/Specialty](https://www.caremark.com/specialty) or scan the code.

\*Where allowed by law. In-store pick up is currently not available in Oklahoma. Puerto Rico requires first-fill prescriptions to be transmitted directly to the dispensing specialty pharmacy. Products are dispensed by CVS Specialty and certain services are only accessed by calling CVS Specialty directly. Certain specialty medication may not qualify. Services are also available at Long's Drugs locations.

## Participating National Network Retail Pharmacies

The network includes all major chains and most independent pharmacies. The following list shows the major chain pharmacies that accept your prescription ID card. In addition to the pharmacies listed below, many independent pharmacies also take part in the prescription program. To find out if a pharmacy not listed here accepts your card, call the pharmacy directly.

## Rx Delivery by Mail

# Convenience, savings and safety

Why get your Rx delivered by mail? Not only is delivery by mail a safe and secure way to get the medications you take regularly (like medication for asthma or high blood pressure) — you'll probably save money, too.

### Convenience

CVS Caremark Mail Service Pharmacy can deliver 90-day supplies of medications you take regularly to your door. For even more convenience, start automatic refills, too.

### Savings

Filling your Rx in 90-day supplies usually comes with savings. Plus, there's no extra cost for shipping.

### Safety

Our secure, nondescript packaging protects your privacy.

**90-day supplies typically cost less than 30-day supplies.**
